

Pro-Series Portable Fall Arrest Anchor Posts are designed to anchor to various work surface mounted anchor plates.

Tripost

Designed for use on transformers or similar elevated surfaces, the PRO-3 Tripost [PT# 30137] provides three separate fall protection-rated anchor points in a lightweight portable package that installs quickly without any tools.

Part #	Description	Anchor Points	Height Max	Height Collapsed	Weight	Price
30147	Tripost, Pro-2	2	171" (4.28m)	71" (1.83m)	66 lbs (30kgs)	
30137	Tripost Pro-3	3	55" (1.39m)	30" (0.76m)	33 lbs (15kgs)	

Workers must stay within the Safe Working Area while attached to the Tripost in accordance with the manufacturer's instructions, to ensure protection as intended by the equipment.

Values shown assume the following conditions; The work surface is at the same elevation as the surface to which the mounting base is installed.

Each worker weighs 310lbs or less, including all clothes, tools and accessories, and is connected to the post using a self-retracting lifeline (SRL) with a Maximum Arrest Force (MAF) rating of 900 lbs(4 kN) or less.
